			Collaboration: 6/6
			Working Software: 19.5/20
			Documentation and Design: 17.93/20
			Summary of Point Deductions:
			Collaboration: None
			Working Software:
			<ul> <li>Did not search for two songs with the same title in MusicStore and Library</li> </ul>
			Documentation and Design:
			<ul> <li>Incorrectly making deep copies when returning mutable objects to avoid problematic escaping references.</li> </ul>
			Good job on the project! The UI looks very clean and easy to use, I liked how the user could type in a number to add the corresponding song. Your explanations of your code design were very thorough and clear. I also liked all the extra features that you guys had! Great work!

LA 1 Collaboration Report	4 / 4	100 %	
LA 2	46 / 46	100 %	Overall Feedback Summary of point deductions:  Collaboration: None  Working software: Did not show when you get a song's album, it tells you if the album is already in the library or not  Documentation and design: None  Your project looked very well put together, great work!
